

Instructions for Import of Leaf Samples from Outside USA

1. The shipment must be accompanied by a copy of Apical APHIS Permit PCIP-19-00228 and this signed form in full.
2. The shipment must be accompanied by an invoice or packing list indicating its contents, which are clearly labeled, and include the permit number (PCIP-19-00228) on the bill of lading.
3. All restrictions and conditions listed on the APHIS permit must be adhered to by the shipper.
4. The imported plant material must be packaged sufficiently to prevent cross contamination during shipment.
5. Imported materials must not be wrapped or otherwise packaged in a manner that impedes or prevents adequate inspection or treatment.
6. The material must be shipped in a sturdy closed container that will prevent the possible escape or introduction of plant pests during shipment.
7. All wood packing material present with this shipment must meet the requirements of the importing and destination country and is subject to ISPM 15 treatment and IPPC stamp requirements and enforcement.

8. Plant species sampled are one of the following:

<i>Avena sativa</i> (oats)	<i>Medicago sativa</i> (alfalfa)
<i>Brassica napus</i> (canola)	<i>Musa acuminata</i> (banana)
<i>Carica papaya</i>	<i>Persea americana</i> (avocado)
<i>Citrus latifolia</i> (persian lime)	<i>Phaseolus vulgaris</i> (common bean/french bean)
<i>Citrus aurantiifolia</i> (key lime)	<i>Phleum pratense</i> (timothy)
<i>Citrus limon</i> (lemon)	<i>Pisum sativum</i> (peas)
<i>Citrus sinensis</i> (orange)	<i>Prunus avium</i> (plum)
<i>Citrus paradisi</i> (grapefruit)	<i>Rubus fruticosus</i> (blackberry)
<i>Coffea arabica</i>	<i>Rubus idaeus</i> (red raspberry)
<i>Coffea robusta</i>	<i>Solanum lycopersicum</i> (tomato)
<i>Dactylis glomerata</i> (orchard grass)	<i>Sorghum bicolor</i> [sorghum (millet)]
<i>Festuca arundinacea</i> (tall fescue)	<i>Theobroma cacao</i>
<i>Festuca ovina</i> (hard fescue)	<i>Triticum aestivum</i> (wheat)
<i>Glycine max</i> (soybean)	<i>Vaccinium corymbosum</i> (s. highbush blueberry)
<i>Gossypium hirsutum</i>	<i>Vaccinium darrowii</i> (evergreen blueberry)
<i>Hordeum vulgare</i> (barley)	<i>Vaccinium myrtillus</i> (bil-/wim-/whortle-berry)
<i>Lolium perenne</i> (perennial ryegrass)	<i>Vitis vinifera</i> (common grape vine)
<i>Malus domestica</i> (apple)	<i>Zea mays</i> (maize)

9. Samples are grown in one of the following countries:
 - a. Canada
 - b. Dominican Republic
 - c. Ecuador
 - d. El Salvador
 - e. Guatemala
 - f. Mexico
 - g. Panama
 - h. Peru
 - i. Saint Vincent and the Grenadines
10. The plant materials must be selected from apparently disease-free and pest-free sources, free of federal noxious weeds and soil.
11. The crop sampled is not genetically modified (requires additional licensing).
12. All other Apical sampling guidelines must be followed:
<http://www.apical-ag.com/grower/sampling>.

I, _____ certify that the above conditions have been met.
